Problem Statement once the team has defined the problem, transfer their output in the text boxes below, they serve as the skeleton of the problem statement.

WHO?

Replace with the top voted persona

University management and school students in the need to pursue higher education

WHAT?

Replace with the top voted challenge

Admission officers dont expect teens to have concrete career and academic plans, but they do not want students to understand the college's mission and have a clear idea of how the schoool can help them meet their goals

WHERE/ WHEN?

Replace with the top voted context

Students seek for admission with desire to join in better institutions according to their preference

WHY?

Replace with the top voted value for the customer

Customer value/benefit

Missing test scors, other application materials will delay the review process for applicants. Its better to doublecheck the requirements first for the faster process.

Replace with the top voted value for the business

Business value/benefit

The total time for the entrance allotment for universities become easier and allotment process become faster.

University grade will improve by alloting the seats to qualified candidate.
